

**Stainless Steel Ear Clamp with Mechanical Interlock**

- Mechanical Interlock:
  - Allows use of pre-coated material
  - The mechanical interlock is a mechanical connection which keeps the clamp closed. By using the mechanical interlock instead of spot-welding, corrosion around the closure elements is reduced
- Clamp ear:
  - Fast and simple installation
  - Visible deformation provides evidence of proper closure
- Stainless Steel, Material no 1,4301/UNS S30400
- Available for 3/4", 1" and 1 1/4" Poly Tubing sizes
